A Better Supply of Natural Gas.

Wheeling manufacturers are getting at the natural gas problem in a practical way. The leaders in the movement to test the home territory should not be allowed to shoulder the whole responsibility. They should have the cordial cooperation of every other manufacturer.

The co-operation should not stop with the manufacturers. Every business man in the community is interested to secure to the woman she hates, while two men would be punching each other's those of any other manufacturing community. Unless this can be done the nunity. Unless this can be done the introduction of natural gas will have seen a positive disadvantage to Wheeling.

Louisiana and West Virginia.

Democrats are claiming that hundreds of colored men in the Third District of Louisiana voted the Democratic ticket. They can't get a West Virginia Democratic politician to believe that. Under the new order of things in this State, every vote policed by a colored man is held to be a Republican vote. This raling is not in compliment to the colored brother, as who should say 'more'

place and re-electing the latter to the directory.

This didn't settle the matter, however, and Shaw voted his stock cumulatively, and contended Cross was elected. The case was taken to court, and Judge Armstrong decided that Shaw had a right to vote his stock cumulatively, but Cross was not eligible because the stock had not been transferred. The decision is looked upon as a victory for the Shaw people, who by cumulative voting can always hold a place in the directory.
